EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lisa Lindquist on August 9, 2006.

The application has been amended as follows:

In line 5 of claim 43, delete "C12" and insert --C16—therefor

Cancel claims 44-46, 51, and 53-57

In line 1 of claim 49, delete "C12" and insert --C16—therefor

In line 1 of claim 52, delete "51" and insert —43—therefor

2. The following is an examiner's statement of reasons for allowance: Applicants have claimed a method of cleaning polyalkylene terephthalate containers by contacting them with an alkaline composition comprising a C16 to C20 alkyl diphenylene oxide disulfonate, a nonionic defoamer, and a sequestrant. The prior art teaches plastic cleaning compositions that may include an alkyl diphenylene oxide disulfonate, however, applicants have argued, and presented evidence, that the narrowly defined alkyl diphenylene oxide disulfonate presently claimed results in unexpected and surprisingly superior cleaning and protecting of PET containers. Based on the results

presented in figure 1 of the present specification, which demonstrate that a C16 diphenylene oxide disulfonate provides a superior combination of cleaning and protecting of PET containers, this argument is found persuasive and so the present claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
